

## ROCKDALE COUNTY PLANNING AND DEVELOPMENT TIMBER HARVESTING APPLICATION

### Checklist

#### 1. Timber Harvesting Site Plan

A Timber Harvesting Site Plan must be submitted with the application, which shall be prepared by or under the direct supervision of a Registered Forester. The forester's signature and registration number shall be affixed to the plan. Said plan shall contain, at a minimum, the following information:

- The location of the property to be harvested including land lot and district, the size, type of harvests and location of areas to be harvested vicinity map, north arrow, tax plat references and name, address and phone number of property owner, timber company and 24 hour local contact;
- A topographic profile of the property to be harvested at 10-foot contour intervals. All lakes or streams and flood plain shall be delineated. All major drainage draws on the property shall be shown. All buffer zones required by the Rockdale County Unified Development Ordinance shall be located and required widths shall be delineated;
- Stream crossings, if any, shall be located and a detailed drawing of any culverts shall be provided including pipe sizes;
- A traffic control plan. All existing and proposed roads, including timber haul routes, log loading areas and access points to surrounding public roads shall be located;
- The expected start and completion dates for the harvesting project.

#### 2. \$10.00 inspection fee (cash, check, credit card or money order)

#### 3. Reforestation Plan

Reforestation plan attached if harvest is a clear-cut or seed tree harvest. Plan includes a timeline of events for reforesting harvested area and methods to achieve reforestation;

**Plans must be approved and timber permit issued prior to commencement.**
